DETAILED ACTION

Allowable Subject Matter

1. Claim 1, 3-12 and 14-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a decoder for multiplexed stream.

The closest prior art, Shiimoto et al. (US 6,584,120) teaches a switch selecting one of a plurality of multiplexed stream. Shiimoto, however, fails to teach to detect a switchable position in a stream and output a signal indicating a decoding switchable position. These features are claimed in the independent claims and render them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
